•••••	filter pocket hem	• • • • •
	Cut 2 pieces of bias binding, each 98cm/38" long.	
50mm/2" pox for scale prin		

Print on A4 paper.

Acrobat settings: Actual size and Poster (uses 3 sheets)

To make a paper or card template to enable folding the pleats, print two copies of the pattern and fold as you would the mask, making the pleats. To strengthen the template, glue the two layers of folded paper together.

Lay the part-made mask, face down with the template face down on top and fold the pleats. Press in place and sew on binding.
